

# Bullying

By Tomm

Bullying is not nice because the people that are getting bullied get scared. Some people think bullying is so cool so they bully. There are several types of bullying I will name some, cyber, name calling, threats, property damage, racism and thieves. All these are different types of bullying I have once bullied a boy and it was funny, I said stuff about his mum and I regret it. I have also been bullied before and I felt so sad I, hated Byron Bay Public School I didn't want to go to school anymore. But my mum said I had to go to school because she had to work. Every now and then I get bullied or nasty comments said to me but, I've learnt to walk away and do nothing.

NO MORE BULLYING, STOP BULLYING NOW
